

SUMMARY DOCUMENT: Player Transfer Policy – Junior League Football

The NSWRL Player Transfer Policy applies to the movement of players between Clubs in all competitions other than those for ages U19 and above.

GENERAL CLUB/TEAM RESTRICTIONS

Under the Policy, a Club is permitted to receive the following number of players within the same age group transferring from other club(s):

From other Clubs **WITHIN** your District:

- **Two (2) players** who played for any **one team** within the **same Club** in the previous season.
- A total of **four (4) players** who played for **any other Club(s) within the District** in the previous season.

From Clubs **OUTSIDE** your own District:

- **Two (2) players** who played for Clubs within the **same External District** in the previous season.
- A total of **four (4) players** who played for Clubs in **any External District** in the previous season.

DIVISION 1 GRAND FINAL TEAMS

Teams who participated in the Division 1 Grand Final within their competition in the previous season:

- The Club will not be allowed to transfer players into that AGE GROUP who played in a Division 1 team in the previous season.

For the purposes of this rule, Division 1 includes competitions where only one Division/grade was conducted.

DEVELOPMENT AND REPRESENTATIVE PLAYERS

In addition to any local rules regarding the transfer of Development or Representative Players, Clubs will not be allowed to transfer players into an age group where that transfer would take the number of Development or Representative Players in that age group above the relevant Quota:

- For Development Players, the applicable Quota is 8 players.*
- For Representative Players, the applicable Quota is 5 players.*

* The Development and Representative Quota may vary across some Districts

Should you require further information please visit www.nswrl.com.au to view the full Policy.

If you have any further questions regarding clarification of this Policy or any appeal against a decision made in line with this Policy please direct these queries to your Club in the first instance.
